

Project Design Phase
Proposed Solution Template

Date	14 July 2026
Team ID	
Project Name	SHOPEZ: E-commerce Application
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S. No	Parameter	Description
1	Problem Statement	Customers need a simple, secure, and responsive online shopping platform, while businesses require an efficient system to manage products and orders.
2	Idea / Solution Description	ShopEZ is a MERN-based e-commerce platform where users can browse products, search items, manage carts, place Cash on Delivery orders, and track order history. Admins can perform product CRUD operations through a secure dashboard.
3	Novelty / Uniqueness	Firebase Authentication, responsive UI, protected admin panel, REST API architecture, and scalable MERN stack implementation.
4	Social Impact / Customer Satisfaction	Promotes digital shopping, supports small businesses, reduces manual work, improves customer convenience, and provides a secure shopping experience.
5	Business Model (Revenue Model)	Product sales, commission from sellers, premium seller subscriptions, featured product advertisements, and future online payment integration.
6	Scalability of Solution	Easily scalable by deploying on cloud platforms, integrating payment gateways, adding multiple vendors, analytics dashboard, wishlist, reviews, and recommendation systems.
